

Pre-conference excursion

Northern Greece

17-19 October 2025 (3 days/2 nights)

Discovery of sites of geological and archaeological significance, such as Meteora and Vergina (both UNESCO World Heritage Sites), Thessaloniki (Greece's second-largest city, rich in culture), and Mount Olympus (the tallest mountain in Greece, believed in Greek mythology to be the home of the gods).

The Meteora complex offers a remarkable landscape of geological and archaeological significance (photo by: Lorenzo Spolet, unsplash)

The facade of the tomb of Philip II of Macedon, the father of Alexander the Great, located in Vergina (Photo https://commons.wikimedia.org/wiki/File:Facade_of_Philip_II_tomb_Vergina_Greece.jpg).

Thessaloniki is Greece's second-largest city, located by the sea and known for its rich cultural heritage (Photo https://commons.wikimedia.org/wiki/File:Thessaloniki_Aristotelous_Square_02.jpg).

Litochoro is a town located at the base of Olympus Mountain. This mountain, according to Greek mythology, is considered the home of the gods. (Photo https://commons.wikimedia.org/wiki/File:Mount_Olympus_from_Litochoro.jpg).

Price: 870 euros

Included: Twin rooms at 3- or 4-star hotels (single supplement of 35%) with breakfast, 3 lunches, 2 dinners, transfers with bus, tourist guide, museum entrances and all taxes.

A minimum of 30 participants and a maximum of 45 participants
